PROFESSIONAL SUMMARY

Fourth-year BS Information Technology student at FAITH Colleges with hands-on experience in web development and IT support. Led teams on school and client projects from planning through deployment, including two systems delivered under Memoranda of Agreement. Seeking a 600-hour OJT placement in IT support or web development, available December 1, 2026 or earlier. FAITH Colleges' OJT Memorandum of Agreement is ready for signing.

TECHNICAL SKILLS

- **Programming:** HTML, CSS, JavaScript, C#; basic Java and C++
- **Frameworks and Platforms:** ASP.NET, Windows Forms (.NET); basic React (Vite), React Native (Expo Go), Progressive Web Apps, Dapper
- **Databases:** Microsoft SQL Server, MariaDB, Supabase, SQLite (basic); database design and modeling
- **Cloud and Deployment:** Microsoft Azure, Vercel, AWS EC2 (fundamentals)
- **IT Support and Networking:** Hardware and software troubleshooting, preventive maintenance, computer assembly, Cisco Packet Tracer (fundamentals)
- **IoT:** Arduino IDE and Arduino programming (basic)
- **Tools:** Git, GitHub, Visual Studio, Figma, Microsoft Office, Google Workspace, Canva, CapCut
- **AI-Assisted Development:** ChatGPT and Codex (OpenAI), Claude and Claude Code (Anthropic)

CORE SKILLS

- **Team Leadership:** Led six school and client projects as Project Manager, Team Lead, or Project Lead, from planning through deployment
- **UI/UX Design and Prototyping:** Wireframes and clickable prototypes in Figma before development
- **System Testing and Bug Fixing:** Internal and integration testing before client delivery
- **Technical Communication:** Explaining technical concepts in plain language to non-technical users
- **Graphics and Video Editing:** Canva and CapCut

PROJECTS

PennyWise — Personal Budget Tracker (Web App) | Developer | Nov 2026

Technologies: React, Vite, SQLite, AWS EC2, Progressive Web App | penny-wise.app

- Developed and deployed a budget tracking web app that lets users monitor expenses, manage budgets, and track their finances.
- Built it as a Progressive Web App installable on phone and desktop, and deployed it on AWS EC2.

AstraMentoring — Mentoring Management and Monitoring System (Capstone) | Project Manager and Technical Lead, team of 3 | 2026

Technologies: ASP.NET, Microsoft SQL Server, HTML/CSS/JavaScript, Figma, GitHub | astramentoring.live

- Managed the project and led technical development of a deployed mentoring system for the FAITH Colleges Counselor's Office under a Memorandum of Agreement.
- Implemented QR code-based attendance that generates a dynamic QR code per mentee, scanned by mentors to record session attendance.
- Developed session request and scheduling, an admin module for accounts and digital evaluation forms, monitoring dashboards, and a centralized notification system.

StarQueen PMTS — Preventive Maintenance and Tracking System (Client Project) | Team Lead, team of 4 | Apr 2026

Technologies: ASP.NET, C#, Microsoft SQL Server, Azure, Vercel, HTML/CSS/JavaScript, Figma, GitHub

- Led a team of 4 in designing and deploying a truck maintenance tracking system for Starqueen Company under a Memorandum of Agreement, from requirement gathering to production release.
- Implemented automated alerts that flag overdue parts based on driver odometer (KM) submissions and notify the admin.
- Built an expense resolution module with photo submission and admin notification; conducted internal testing and bug fixing before client delivery.

Automatic Garage Door Opener (IoT) | Project Lead, team of 3 | Apr 2026

Technologies: Arduino IDE, Arduino programming

- Led a team of 3 in building an IoT-based automatic garage door opener that combines hardware components with Arduino programming.

CineMax — Mood-Based Movie Discovery Website | Co-Lead, team of 6 | Nov 2025

Technologies: HTML/CSS/JavaScript, Figma, GitHub, Vercel

- Co-led a team of 6 building a deployed movie discovery site that recommends films based on the user's mood and current weather, using multiple APIs for movie details, trailers, and streaming platforms.
- Designed the UI/UX in Figma before implementation and coordinated features through GitHub.

NewtonIQ — Impulse and Momentum Calculator | Team Lead, team of 6 | 2025

Technologies: HTML/CSS/JavaScript

- Led a team of 6 in building a deployed web calculator that gives step-by-step solutions, tutorials, and lessons on impulse and momentum.

BookMark — Mobile Library Management System | Team Lead and Backend Developer, team of 3 | May 2025

Technologies: React Native (Expo Go), Supabase

- Led a team of 3 and developed the Supabase backend for a mobile app that simplifies library processes.

Kraby Kitchen — Restaurant Order Management System (Desktop App) | Team Lead and Full-Stack Developer, team of 3 | Dec 2024

Technologies: Windows Forms (.NET), Visual Studio, MariaDB, phpMyAdmin

- Led a team of 3 in building a desktop ordering system with account sign-up and login, menu ordering, and order management.
- Designed and implemented the MariaDB database schema and handled integration testing.

Additional coursework projects: CRUD Mobile App (React Native, Expo Go; Mar 2025); Basic Calculator (Visual Studio, class activity).

EXPERIENCE

Digital Literacy Volunteer | CLICK Program, FAITH Colleges, Tanauan City, Batangas | Aug 2023

- Taught barangay workers from Darasa, Tanauan, Batangas to use Microsoft Word, PowerPoint, and Gmail.
- Explained technical concepts in plain language and adapted instruction to each learner's pace.

IT Support Intern (Work Immersion) | MIS Department, FAITH Colleges, Tanauan City, Batangas | Jan 2023 – Feb 2023

- Completed 160 hours of hands-on IT support across classrooms, laboratories, and administrative offices.
- Diagnosed and resolved hardware, software, and connectivity issues on lab and staff computers.
- Performed preventive maintenance, computer assembly, audio-visual setup, and network troubleshooting.
- Prioritized and handled support requests with the MIS team during peak periods such as school events and examinations.

EDUCATION

Bachelor of Science in Information Technology | First Asia Institute of Technology and Humanities (FAITH Colleges), Tanauan City, Batangas | 2023 – Present (Expected Graduation: 2027)

- Dean's Lister: 1st Year (1st and 2nd Semester), 2nd Year (2nd Semester), 3rd Year (1st Semester)
- President's Lister: 2nd Year (1st Semester)

Senior High School, TVL Track — ICT Strand | FAITH Fidelis Senior High School, Tanauan City, Batangas | 2021 – 2023

- Graduated with Honors
- Class President (S.Y. 2022–2023); Class Secretary (S.Y. 2021–2022)

CERTIFICATIONS AND TRAINING

- Introduction to HTML (Course Certificate) — SoloLearn, Aug 2024
- Certificate of Attendance, CALABARZON Cybersecurity Caravan — DICT Region IV-A, Apr 2024
- Certificate of Participation, DSDAP Caravan — DICT Region IV-A, Apr 2024
- Certificate of Participation, eGovPH Orientation — DICT Region IV-A, Apr 2024
- Certificate of Completion, IT Support Work Immersion (160 hours) — FAITH Colleges MIS Department, Feb 2023
