

DANIELA NICOLE T. BARRANDA

Bachelor of Science on Information Technology — FAITH Colleges, Tanauan City, Batangas
326 - A, Santiago Malvar Batangas | barrandadaniela@gmail.com | github.com/DanielaBarranda

PROFESSIONAL SUMMARY

Detail-oriented BSIT student with hands-on experience in IT support, troubleshooting, and full-stack application development. Proven ability to diagnose and resolve hardware and software issues in real environments, and to design, build, and deploy application systems from requirement gathering to release. Led multiple collaborative development projects using ASP.NET, Microsoft SQL, Azure, and GitHub. A reliable team player who takes initiative, communicates clearly, and adapts quickly — ready to assist in system testing, bug fixing, and development tasks from day one.

TECHNICAL SKILLS

- Computer Hardware & Software Troubleshooting
- System Testing, Bug Identification & Fixing
- Version Control & Collaboration (Git, GitHub)
- UI/UX Design & Prototyping (Figma)
- Microsoft Office Suite & Google Workspace
- Web Development (HTML, CSS, JavaScript)
- Backend Development (ASP.NET, C#)
- Database Management (Microsoft SQL, MariaDB, Supabase)
- Cloud Deployment (Microsoft Azure, Vercel)
- Basic Java, and C++
- AI-Assisted Development (ChatGPT, Claude)
- Canva
- Capcut

PROFESSIONAL EXPERIENCE

Digital Literacy Volunteer Aug 2023

CLICK Program, FAITH Colleges — Tanauan City, Batangas

- Assisted barangay workers to use Microsoft Word, PowerPoint, and Gmail, translating technical concepts into accessible, practical instruction.
- Demonstrated patience, communication, and adaptability when working with non-technical users — skills directly applicable to team collaboration and task updates in a professional environment.

IT Support Intern (Work Immersion) Jan 2023 - Feb 2023

MIS Department, FAITH Colleges — Tanauan City, Batangas

- Completed 160 hours of hands-on IT support, troubleshooting hardware and software issues across classrooms, laboratories, and administrative offices — improving equipment uptime and reducing disruptions.
- Diagnosed and resolved system errors, software conflicts, and connectivity issues in computer labs and staff computers, applying systematic bug identification and fix processes.
- Assisted in preventive maintenance, computer assembly, Audio-Visual setup, and network troubleshooting — ensuring systems were ready and functional for daily school operations.
- Collaborated with the MIS team to prioritize and act on support requests during peak activity periods such as school events and examinations.
- Received Certificate of Completion.

PROJECTS

AstraMentoring - A Mentoring Management and Monitoring System (Capstone Project) Jan 2026 - Ongoing

[Team Lead — 3] [Expected: August 2026] [ASP.NET] [Microsoft SQL] [HTMLS/CSS/JS] [Figma] [GitHub] [MOA]

- Leading the development of a centralized web-based mentoring management system for the Counselor's Office of FAITH Colleges, automating scheduling, announcements, and attendance monitoring.
- Implemented QR code-based attendance tracking that generates dynamic QR codes per mentee and records session attendance through a scanning interface managed by mentors.

- Developed session request and scheduling features allowing mentees to book one-on-one mentoring sessions based on mentor-posted availability.
- Built an admin module for managing mentor and mentee accounts, digital evaluation forms, and session monitoring dashboards.
- Integrated a centralized notification system for mentoring schedules, announcements, and evaluation reminders.
- Engaged in a formal client agreement (MOA) with the FAITH Colleges Counselor's Office, ensuring project requirements are aligned with real institutional needs.

StarQueen Planned Maintenance and Tracking System (PMTS) [Deployed] [Team Lead — 4] April 2026

[ASP.NET] [C#] [Microsoft SQL] [Azure] [Vercel] [HTML/CSS/JS] [Figma] [GitHub] [MOA]

- Led a team of 4 in designing and deploying a full-stack truck maintenance tracking system for a real client — from requirement gathering and system architecture through to production release.
- Implemented automated alert logic that checks overdue parts based on driver KM submissions and notifies the admin, minimizing manual monitoring.
- Built an expense resolution module with photo submission and admin notification, ensuring maintenance completion is documented and traceable.
- Conducted internal testing and bug fixing throughout development to ensure system reliability before client delivery.
- Managed team collaboration and version control via GitHub; designed UI/UX prototypes in Figma.

CineMax — Mood-Based Movie Discovery Website November 2025

[HTML/CSS/JS] [Figma] [GitHub]

- One of the Leads in building a web-based movie library where users browse trailers and receive streaming platform recommendations (Netflix, HBO, etc.) based on their selected mood.
- Designed UI/UX design in Figma before implementation; collaborated with a team via GitHub for version control and feature integration.

Kraby Kitchen — Order Management System [Team Lead — 3] December 2024

[ASP.NET] [Visual Studio] [MariaDB] [HTML/CSS/JS]

- Led a team of 3 in building a full-stack restaurant ordering system covering menu browsing, order placement, and management workflows.
- Designed and implemented the MariaDB schema integrated with an ASP.NET backend; coordinated team tasks and handled integration testing across frontend and backend components.

EDUCATION

First Asia Institute of Technology and Humanities (FAITH Colleges) 2023 - Present

Bachelor of Science in Information Technology — Tanauan City, Batangas

- Dean's Lister: 1st Year (1st & Second Sem), 2nd Year (2nd Sem), 3rd Year (1st Sem) | President Lister: 2nd Year (1st Sem)

FAITH Fidelis Senior High School 2021 - 2023

TVL Track — ICT Strand | Tanauan City, Batangas | Graduated with Honors

- Class Secretary (S.Y. 2021-2022) | Class President (S.Y. 2022-2023)

CERTIFICATIONS

- **DICT Region IV-A Events** (Apr 2024, FAITH Colleges) — Certificate of Attendance, CALABARZON Cybersecurity Caravan; Certificate of Participation, DSDAP Caravan; Certificate of Participation, EGOVPh Orientation
- **HTML Certificate** — SoloLearn Mobile App (self-directed web development learning)
